

IV sedation is a very safe and predictable way to have a great experience at the dentist. The information in this pamphlet is designed to educate on what IV sedation is and what can be expected from the procedure.

BENEFITS OF IV SEDATION

- ◇ It is extremely effective for treating patients with any level of anxiety.
- ◇ It is quick acting.
- ◇ The level of sedation can be adjusted during the procedure so that you remain comfortable at all times.
- ◇ In many cases, you can get ALL of your dental work done in one visit.
- ◇ There are minimal to no side effects.

WANT MORE INFORMATION:

If at any time you have any questions or would like more information please feel free to contact Dr. Field. His email is jfield@pccd.net or by phone at (650) 948-5524.
